SOLIDTOP, L'ORIGINALE

Sin dal primo progetto fino alla produzione attuale, Solitop è stata influenzata dalla visione di durata, resistenza ed eleganza attraverso il tempo.

Grazie all'ereditate competenze nel creare prodotti all'avanguardia e la curiosità nell'approciare nuove finiture e materiali, l'azienda offre una gamma completa e innovativa.

Coggiugando l'esperienza del laboratorio all'ufficio di ricerca e sviluppo, Solidtop lavora costantemente per creare soluzioni funzionali e tecnologiche che consentono di risolvere preventivamente le comuni problematiche post-vendita.

Solidtop è orgogliosa di presentare la nuova selezioni di colorazioni, lavelli e tavoli in esclusiva volti a proporre al cliente un'alternativa originale, unica sul mercato.

Solidtop, scegli l'originale.

Right from our first project to our current production, Solitop has been true to its vision of durability, strength and elegance over time.

Thanks to our expertise in creating cutting-edge products and our curiosity in selecting new finishes and materials, our company offers a complete and innovative range.

Close collaboration between the laboratory and the research and development department allows Solidtop to create functional and technological solutions that solve common after-sales problems before they occur.

Solidtop is proud to present their new selection of colours, sinks, basins and tables aimed exclusively at offering the customer an original alternative that is unique on the market.

Solidtop, choose the original.

Dès le projet initial et jusqu'à la production actuelle, Solidtop a été influencée par la vision de durée, de résistance et d'élégance à travers le temps.

Grâce aux compétences héritées dans la création de produits d'avant-garde et la curiosité pour aborder des nouvelles finitions et de nouveaux matériaux, l'entreprise offre une gamme complète et innovante.

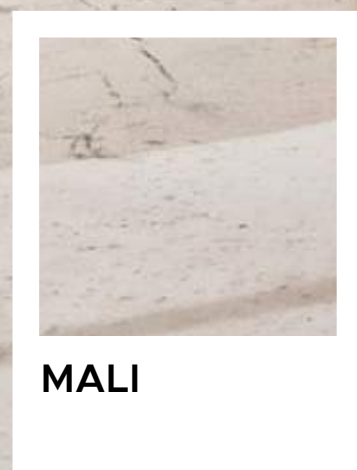

En conjuguant l'expérience du laboratoire avec le service de recherche et développement, Solidtop travaille constamment pour créer des solutions fonctionnelles et technologiques qui permettent de résoudre de manière préventive les problématiques courantes de l'après-vente.

Solidtop est fière de présenter sa nouvelle sélection de coloris, d'éviers et de tables en exclusivité afin de proposer au client une alternative originale, unique sur le marché.

Avec Solidtop, choisissez l'original.

PROPRIETÀ E QUALITÀ DI HPL SOLIDTOP

HPL Solidtop è un prodotto resistente e con caratteristiche ottimali per l'utilizzo nell'ambiente cucina, bagno e living. La progettazione di nuovi spazi diventa accattivante e rivoluzionaria grazie alle molteplici applicazioni possibili, tra cui vasche integrate, costruzioni monolitiche e finiture eccezionalmente realistiche.

HPL Solidtop is a durable product with optimal characteristics for use in the kitchen, bathroom and living room. Designing new spaces becomes captivating and revolutionary thanks to its many applications, including integral sinks, monolithic structures and exceptionally realistic finishes.

HPL Solidtop est un produit résistant et qui possède des caractéristiques optimales pour une utilisation dans la cuisine, la salle de bains et la salle de séjour. La conception de nouveaux espaces devient captivant et révolutionnaire grâce aux multiples applications possibles, parmi lesquelles des vasques intégrées, des constructions monolithiques et des finitions exceptionnellement réalistes.

01. IMPERMEABILITÀ

Impermeabilità ad acqua e vapore, limone, olii e acidi alimentari.
Steam and waterproof, impermeable to lemon, oils and food acids.
Imperméabilité à l'eau et à la vapeur, au citron, aux substances grasses et aux acides alimentaires.

02. IGENICITÀ

Facilita di pulizia e idoneo al contatto con gli alimenti.
Easy to clean and suitable for contact with food.
Peut être nettoyé facilement et convient au contact avec les aliments.

03. RESISTENZA

Praticità di utilizzo e resistenza meccanica.
Practical to use and shock resistant.
Utilisation pratique et résistance mécanique.

04. TERMORESISTENZA

Resistenza al calore fino a 180°
Heat resistant up to 180°C.
Résistance à la chaleur jusqu'à 180°

04. GRANDI DIMENSIONI

Possibilità di realizzare ampi piani, grandi isole e pezzi unici a L senza giunte (lastre fino a 4200 x 1600 mm). Can be made into long worktops, large islands and unique L-shaped pieces without joints (slabs up to 4200 x 1600 mm). Possibilité de réaliser des plans larges, de grands îlots et des pièces uniques en L sans joints (panneaux jusqu'à 4200 x 1600 mm).

05. MONOLITI

Possibilità di creare monoliti di varie tipologie, componibili facilmente sul posto grazie alla predisposizione delle giunte a 45° e della ferramenta di fissaggio in dotazione. Can be made into various types of monolithic structures, easy to assemble on site thanks to ready-made 45° joints and the supplied fastening hardware. Possibilité de créer des monolithes de différents types, à monter facilement sur place grâce à la prédisposition des joints à 45° et des éléments de fixation fournis.

06. VASCHE INTEGRATE

Vasche integrate in HPL, Magic Bowl in acciaio inox e Inner bowl in quarzo sinuosamente integrate nella superficie del top. HPL integral sinks, stainless steel Magic Bowl sinks and quartz Inner Bowl sinks seamlessly integrated into the surface of the worktop. Vasques intégrées en HPL, Magic Bowl en acier inox et Inner bowl en quartz sinueusement intégrées sur la surface du plan.

07. ANTE-TOP COORDINATI

Disponibilità di ante in abbinamento al piano in hpl, con la stessa finitura su top e ante.
Coordinating cabinet doors to match the HPL top, with the same finish on worktop and doors.
Possibilité d'ajouter des portes au plan en HPL, avec la même finition sur le plan et les portes.

08. MOLTEPLICI FINITURE

Ampia varietà di colori effetto pietra, metallo, resine e legni.
Wide range of colours and stone, metal, resin and wood effect finishes.
Large gamme de coloris effet pierre, métal, résines et bois.

DIFFERENTI TIPOLOGIE DI PIANO

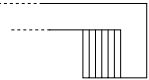

Le tipologie di Top sono tre, differenti tra loro per spessore e lavorazione.

There are three types of worktop, different from each other in thickness and processing.

Il existe trois types de plans, dont l'épaisseur et l'exécution diffèrent.

TOP A

Interamente in HPL stratificato, rinforzato con multistrato di pioppo. Permette di realizzare piani di forte spessore (da 20 mm a 160 mm). Sia il piano che la veletta del bordo sono in HPL spessore 12 mm.

Made entirely from stratified HPL, reinforced with poplar multilayer. For making very thick worktops (from 20 mm to 160 mm). Both the worktop and the edge spandrel are made from 12 mm thick HPL.

Entièrement en HPL stratifié, renforcé avec panneau de bois contreplaqué multicouche peuplier. Permet de réaliser des plans très épais (de 20 mm à 160 mm). Aussi bien le plan que l'écoinçon sur le bord sont en HPL d'une épaisseur de 12 mm.

TOP D

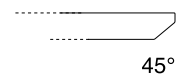

Interamente in HPL stratificato, dall'immagine minimale ed essenziale. Permette di realizzare anche forme curve, a disegno ed è ideale per top cucina, bagno, piani scrivania e piani tavoli per esercizi commerciali e locali pubblici (spessore 12 mm).

Made entirely from stratified HPL, with a minimalist and essential look. It also allows the creation of curved drawn shapes and is ideal for kitchen worktops, bathrooms, desk tops and table tops for shops and public spaces (12 mm thick).

Entièrement en HPL stratifié, pour une image minimale et essentielle. Permet de réaliser également des formes arrondies, sur mesure et il est idéal pour des plans de cuisine, de salle de bains, des tables de bureau ou des tables destinées aux locaux commerciaux et aux locaux publics (épaisseur de 12 mm).

TOP S

La proposta più recente nelle tipologie di piano disponibili. Ha le stesse potenzialità e gli stessi requisiti tecnici del Top D, ma è caratterizzato da un taglio a smusso che ne enfatizza il sottile spessore (12 mm).

Our most recent product of the available worktops. It has the same potential and technical requirements as the Top D, but is characterized by a bevelled end cut that emphasizes its thin thickness (12 mm).

La proposition la plus récente dans les types de plan disponibles. Il possède les mêmes potentiels et les mêmes exigences techniques que le Top D, mais il est caractérisé par une découpe finale à bords émousés, ce qui accentue le caractère fin de l'épaisseur (12 mm).

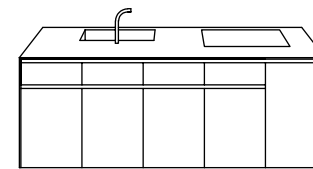

MONOLITI

Con le tipologie TOP D e TOP S è possibile realizzare monoliti con giunte a 45° tra piano, spalle e retro (ancorati con particolari tiranti in dotazione) in finitura pietra, metalli, resine e legno, unici nel loro genere. Disponibili in tutte le varianti di colore a campionario.

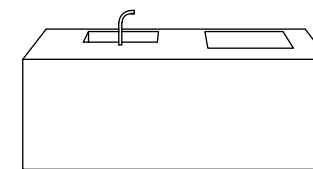

With the TOP D and TOP S types, unique and one-of-a-kind monoliths may be made with 45° joints between the worktop, sides and back (anchored with supplied rods) in stone, metal, resin and wood finishes. Available in the colour variations of the samples.

Avec les types TOP D et TOP S il est possible de réaliser des monolithes avec des joints à 45° entre le plan, les côtés et l'arrière (ancrés avec des entretoises particulières fournies) en finition pierre, métaux, résines et bois, uniques en leur genre. Disponibles dans toutes les variantes de coloris de l'échantillon.

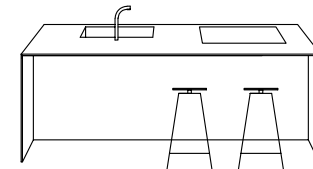

MONOLITE EXTRA

MONOLITE ONE

MONOLITE SPACE

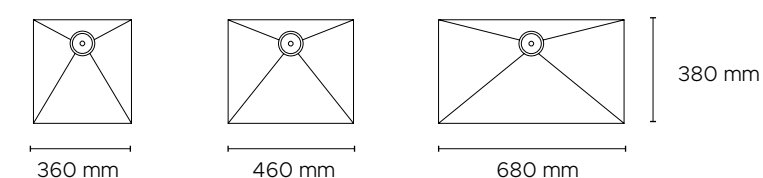

VASCHE AMBIENTE CUCINA

L'ambiente cucina si rinfresca con le numerose vasche integrate, nelle varianti in HPL, acciaio inox e quarzo. La caratteristica principale che accomuna tutte le vasche integrate è l'impercettibile giunta tra il piano in HPL e le sponde della vasca, raccordo dal design minimalista ma nel contempo igienico e facile da pulire. L'insieme dà vita ad una piacevole continuità tattile e visiva.

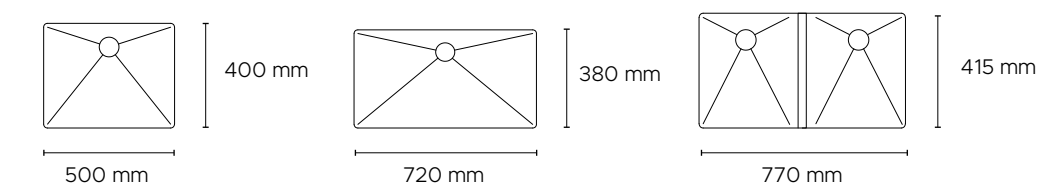

The kitchen environment is refreshed with our range of integral sinks, in HPL, stainless steel or quartz variants. The feature common to all sinks is the imperceptible joint between the HPL worktop and the edges of the sink, a fitting with a minimalist design but at the same time hygienic and easy to clean. The result is a pleasant tactile and visual continuity.

La pièce de la cuisine se rafraîchit avec les nombreux évier intégrés, dans les variantes en HPL, acier inox et quartz. La caractéristique principale qui réunit tous les éviers intégrés est le joint imperceptible entre le plan en HPL et les bords de l'évier, un raccord au design minimaliste mais hygiénique en même temps et facile à nettoyer. L'ensemble donne vie à une agréable continuité tactile et visuelle.

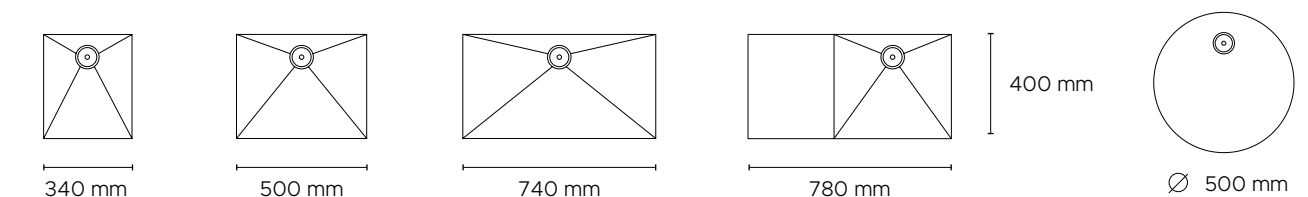

VASCA INTEGRATA HPL

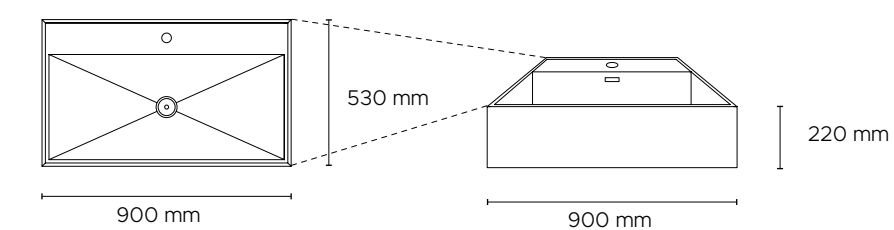

VASCA INTEGRATA INNER BOWL QUARZO

VASCA INTEGRATA MAGIC BOWL ACCIAIO

VASCA VINTAGE

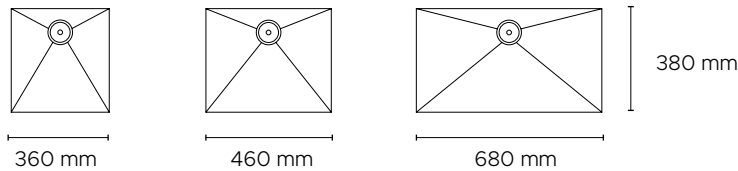

VASCA INTEGRATA HPL

I top in HPL permettono l'applicazione di vasche integrate di varie misure, nella stessa finitura scelta per il piano. Sono disponibili con fondo in acciaio inox in tutte le varianti di colore e con fondo in HPL in alcune colorazioni. Per le vasche fondo inox è realizzabile il doppio fondo. La continuità di disegno tra top e lavello rende la vasca integrata una sfiziosità immancabile in cucina.

The HPL worktops can house integral sinks of various sizes, in a matching finish to the worktop. They are available with stainless steel bottoms in all colour variations and with HPL bottoms in certain colours. For stainless steel bottomed sinks, a double bottom may be fitted. The continuous design between worktop and sink makes the integral sink an unmissable delicacy in the kitchen.

Les plans en HPL permettent la pose d'éviers intégrés de différentes tailles, avec la même finition que celle choisie pour le plan. Les éviers sont disponibles avec fond en acier dans toutes les nuances de coloris et un fond en HPL pour certains coloris. Pour les éviers avec un fond en inox, le double fond peut être réalisé. La continuité du design entre le plan et l'évier fait de la vasque intégrée une envie incontournable pour la cuisine.

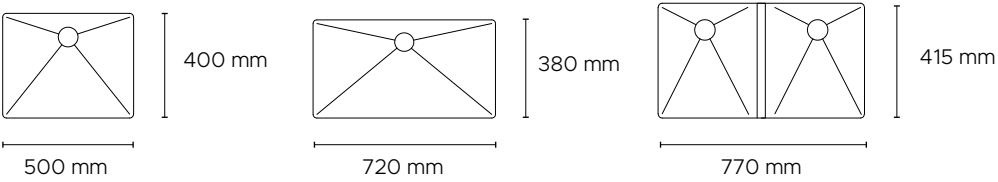

VASCA INTEGRATA INNER BOWL QUARZO

Una variante fresca e materica è rappresentata dalla vasca integrata in quarzo. La giunzione minimale di pochi millimetri tra il piano in HPL e la vasca in quarzo garantisce un raccordo sinuoso tra i due materiali. Disponibile in diverse varianti di colore.

A fresh and materic variation is the integral quartz sink. The minimal joint of a few millimetres between the HPL worktop and the quartz sink ensures a sinuous connection between the two materials. Available in different colour variations.

L'évier intégré en quartz représente une variante fraîche et très liée à la matière. La jonction minimale de quelques centimètres seulement entre le plan en HPL et l'évier en quartz assure un raccord sinueux entre les deux matériaux. Disponible en différents coloris.

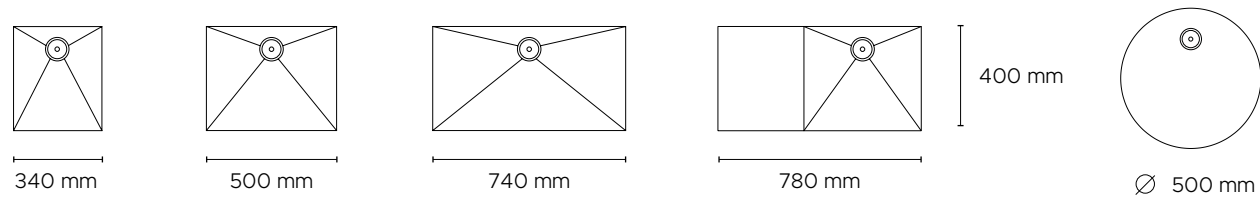

VASCA INTEGRATA MAGIC BOWL ACCIAIO

Innovative vasche integrate che uniscono sinuosamente il top in HPL all'acciaio inox, lasciando un bordo di pochi millimetri di spessore: si ottiene così una giunta quasi impercettibile tra i due materiali.

Innovative integral sinks that sinuously combine the HPL worktop with steel, leaving a border a few millimetres thick: this results in an almost imperceptible joint between the two materials.

Des évier intégrés innovants qui unissent de manière sinieuse le plan en HPL et l'acier, avec un bord de quelques centimètres d'épaisseur : l'on obtient ainsi une jonction presque imperceptible entre les deux matériaux.

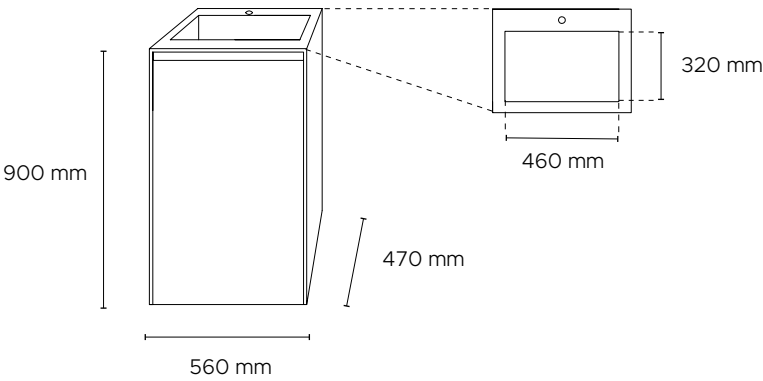

VASCHE AMBIENTE BAGNO

L'utilizzo di HPL è ideale anche nell'ambiente bagno che, attraverso colori e materiali, può essere arredato e vissuto come zona relax oltre che come spazio pratico e funzionale.

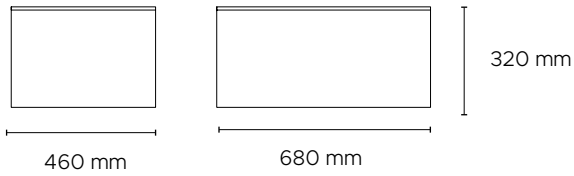

The use of HPL is also ideal in the bathroom which, through colours and materials, can be furnished and experienced as a place for relaxation as well as a practical and functional space.

L'utilisation du HPL est idéale pour les salles de bains également qui, à travers des coloris et des matériaux, peuvent être aménagées et utilisées comme un espace de détente en plus d'être pratiques et fonctionnelles.

TAVOLI E COMPLEMENTI

La nuova collezione living, tavoli sedute e complementi, nasce dalla volontà di creare una piacevole continuità tra i vari ambienti della casa, partendo dalla cucina. Ogni prodotto è personalizzabile, la scelta tra infinite colorazioni per top in HPL e legno massello e le numerose disponibilità di forme e strutture lasciano libero spazio alla fantasia. Si crea così un'architettura della casa che lascia comunicare liberamente ambienti con diverse destinazioni d'uso grazie al gioco di materiali e stili perfettamente abbinati tra loro.

The new living room collection of seating, tables and accessories, was born from the search for a harmonious continuity between different rooms of the house, starting from the kitchen. Each product is customizable and the infinite range of colours for HPL and solid wood worktops, together with the availability of shapes and structures, leave the imagination free reign. An architecture of the home is thus created, in which spaces with different uses communicate thanks to an interplay of perfectly matched materials and styles.

La nouvelle collection salon, tables, chaises et accessoires complémentaires est née de la volonté de créer une continuité agréable entre les différentes pièces de la maison, en commençant par la cuisine. Chaque produit est personnalisable, le choix entre des coloris infinis pour les plans en HPL et en bois massif et les nombreuses formes et structures disponibles laissent libre cours à l'imagination. L'on peut ainsi créer une architecture de la maison qui laisse communiquer librement les pièces avec des utilisations différentes grâce au jeu de matériaux et de styles parfaitement associés entre eux.

COLORI E FINITURE

Punto di forza di Solidtop è la grande disponibilità di finiture e colorazioni, per Laminato stratifica HPL, legno masello, metalli, tessuti e Solid Surfaces. Le combinazioni possibili tra prodotti e finiture sono infinite e personalizzabili.

Solidtop's strong point is the wide range of finishes and colours, mainly for stratified HPL laminate, but also for solid wood, metals, fabrics and Solid Surface. The possible combinations between products and finishes are endless and customizable.

Le point fort de Solidtop est la grande disponibilité de finitions et de coloris, principalement pour le stratifié HPL, mais également pour les bois massifs, les métaux, les tissus et les Solid Surface. Les combinaisons possibles entre les produits et les finitions sont infinies et personnalisables.
